PROFESSIONAL SUMMARY

Android Software Engineer with 4+ years of experience shipping production apps in Kotlin and Jetpack Compose for users in Egypt and Saudi Arabia.

- **Architecture:** Clean Architecture, MVI, MVVM, modularization, Coroutines and StateFlow.
- **Performance and quality:** Baseline Profiles, Macrobenchmark and R8; 99.6% crash-free sessions.
- **Leadership:** sets engineering standards, reviews code and onboards teammates.
- **Delivery:** 20+ releases on a 10K+ download, 4.6-star app; 151 of ~180 screens migrated to Compose.

PROFESSIONAL EXPERIENCE

Android Developer | Mega Trust Group | Egypt Aug 2023 – Present

- Technical owner and architecture lead for TaskedIn, a business workspace app (10K+ downloads, 4.6 stars on Google Play): set architecture and coding standards and delivered 20+ releases.
- Review and merge pull requests; run onboarding and architecture knowledge-sharing sessions.
- Leading the migration of a 90+ module codebase from XML to Jetpack Compose (151 of ~180 screens done), with type-safe navigation and a shared design system.
- Cut cold start by ~30% with Baseline Profiles and R8, verified with a Macrobenchmark test; maintain 99.6% crash-free sessions across 100K+ monthly sessions.
- Maintain JUnit, Mockk, Turbine and Espresso tests, with LeakCanary and GitHub Actions CI/CD.
- Own video meetings and screen sharing on a WebRTC-based SDK; rebuilt chat with SignalR real-time messaging and S3 file sharing.

Android Developer (Contract, Part-time) | Sanad Pay | Remote, Saudi Arabia Jul 2025 – Dec 2025

- Owned Android architecture and delivery end to end for Sanad Business, a Mada merchant payments app built from scratch alongside a full-time role; ~300 merchants in Saudi Arabia.
- Designed payment failure and timeout handling so cashiers always see a clear result, and added offline receipts and receipt printing with the Sunmi SDK.

Android Developer Intern | Alalmiya Alhura for IT Jul 2023 – Aug 2023

- Built and refined the trip flow of Captain One (Google Play) using the Google Maps API and MVI.

Android Developer | Rahtuk | Remote, Saudi Arabia Aug 2022 – Nov 2022

- Architected and built a real-time home-services app from scratch (8+ service categories) on a layered MVP architecture; contributed to an estimated ~40% increase in upselling.

TECHNICAL SKILLS

Languages: Kotlin (Coroutines, Flow, StateFlow), Java, XML

Architecture: Clean Architecture, MVI, MVVM, MVP, Modularization, SOLID, Dependency Injection

Android: Jetpack Compose, Android Jetpack (type-safe Navigation, Lifecycle, ViewModel, LiveData, Paging), Koin, Hilt, Retrofit/OkHttp (REST), Room (SQLite), DataStore, WorkManager, Material Design

Testing & Quality: Unit testing, UI testing, JUnit, Mockk, Turbine, Espresso, LeakCanary, accessibility

Performance: Baseline Profiles, R8, Macrobenchmark, crash and ANR monitoring

Integrations: WebRTC, SignalR, AWS S3, Google Maps API, Firebase (Firestore, Cloud Messaging, Crashlytics), Mada payments, Sunmi POS SDK, Arabic RTL and i18n

Tooling: Git/GitHub, Gradle, GitHub Actions (CI/CD), Android SDK, Google Play Console (AAB signing, staged rollout), Agile/Scrum

Cross-Platform: Kotlin Multiplatform (KMP), Compose Multiplatform (CMP), proof-of-concept projects

PROJECTS

Meta Sight | github.com/bassam-khafagy127/Meta_Sight Graduation project, 2022

- Led a team building a vision assistant for visually impaired users (ML Kit, TensorFlow Lite).

EDUCATION

Bachelor of Management Information Systems (MIS) 2018 – 2022

Delta University for Science and Technology

LANGUAGES

Arabic: Native | English: Professional proficiency
