PROFESSIONAL SUMMARY

Mobile Engineer with 4+ years of experience shipping production apps for users in Egypt and Saudi Arabia: Kotlin and Jetpack Compose on Android, and a React Native + Expo rewrite now in development.

- **Architecture:** Clean Architecture, MVI, MVVM, modularization, Coroutines and StateFlow.
- **Performance and quality:** Baseline Profiles, Macrobenchmark and R8; 99.6% crash-free sessions.
- **Leadership:** sets standards, reviews PRs, onboards teammates; sole mobile engineer for the past year.
- **Delivery:** 20+ releases on a 10K+ download, 4.6-star app; 151 of ~180 screens migrated to Compose.

PROFESSIONAL EXPERIENCE

Mobile Engineer (Android & React Native) | Mega Trust Group | Egypt Aug 2023 – Present

- Technical owner and architecture lead for TaskedIn, a business workspace app (tasks, real-time chat, meetings, HR; 10K+ downloads, 4.6 stars on Google Play): set architecture and coding standards, delivered 20+ releases, review and merge PRs, and run onboarding and architecture sessions.
- React Native + Expo (in active development, not yet released): leading the rewrite of the app for iOS (TypeScript, TanStack Query, Zustand, Zod, React Navigation); wrote a custom Expo config plugin to integrate a native video-meeting SDK under Continuous Native Generation (CNG).
- Leading the XML to Jetpack Compose migration of a 90+ module codebase (151 of ~180 screens done) with type-safe navigation and a shared design system.
- Cold start cut ~30% (Baseline Profiles, R8, Macrobenchmark-verified); 99.6% crash-free sessions.
- Own video meetings and screen sharing on a WebRTC-based SDK; rebuilt chat with SignalR real-time messaging and S3 file sharing.
- Tests and CI/CD: JUnit, Mockk, Turbine, Espresso, LeakCanary, GitHub Actions.

Android Developer (Contract, Part-time) | Sanad Pay | Remote, Saudi Arabia Jul 2025 – Dec 2025

- Owned Android architecture and delivery for Sanad Business, a from-scratch Mada merchant payments app (~300 merchants); built payment failure handling and offline receipts.

Android Developer Intern | Alalmiya Alhura for IT Jul 2023 – Aug 2023

- Built and refined the trip flow of Captain One (Google Play) with the Google Maps API and MVI.

Android Developer | Rahtuk | Remote, Saudi Arabia Aug 2022 – Nov 2022

- Architected a real-time home-services app (8+ categories); helped lift upselling ~40% (estimated).

TECHNICAL SKILLS

React Native: React Native, Expo (config plugins, CNG), TypeScript, React Navigation, TanStack Query, Zustand, Zod, React Hook Form, Reanimated, Gesture Handler, MMKV / SecureStore / SQLite

Android: Kotlin (Coroutines, Flow, StateFlow), Java, XML, Jetpack (Compose, Navigation, Lifecycle, ViewModel, Paging), Hilt, Koin, Retrofit/OkHttp, Room, DataStore, WorkManager, Material Design

Architecture: Clean Architecture, MVI, MVVM, Modularization, SOLID, DI

Testing & Quality: JUnit, Mockk, Turbine, Espresso, LeakCanary, accessibility

Performance: Baseline Profiles, R8, Macrobenchmark, crash/ANR monitoring

Integrations: WebRTC, SignalR, AWS S3, Google Maps API, Firebase (Firestore, FCM, Crashlytics), Mada payments, Sunmi POS SDK, Arabic RTL and i18n

Tooling: Git/GitHub, Gradle, GitHub Actions, Google Play Console (AAB, staged rollout), Agile/Scrum

Cross-Platform: KMP, CMP (proof-of-concept)

PROJECTS

Meta Sight | github.com/bassam-khafagy127/Meta_Sight Graduation project, 2022

- Led a team building a vision assistant for visually impaired users (ML Kit, TensorFlow Lite).

EDUCATION

Bachelor of Management Information Systems (MIS) 2018 – 2022

Delta University for Science and Technology

LANGUAGES

Arabic: Native | English: Professional proficiency
